

NELSON MANDELA ACADEMY

SUMMER SCHOOL PROGRAM 2021

[Nelson Mandela Academy](#) offers a totally new kind of summer school! Sure, there's grade recovery for those who need to make up a failing or incomplete grade, but there's so much more! Students can earn a tech certification, fly a drone, or take an advanced course not offered at their home high school. They can earn credit for trying to *change* their world as an activist. Or *create* a world as a game designer. The possibilities are truly endless.

To participate, students must:

1. Complete and submit the following information to their program representative via email with a request to participate:
Name, Email, Date of Birth, 2021-2022 Academic Grade, Parent or Guardian Name, Phone & Email, and High School of Record
2. Approved students must attend 80% of all sessions to successfully complete the summer program.
3. Participating students are responsible for obtaining approval to transfer the course credits to their home high school. A sample form which may be used to facilitate this is available [here](#).
4. Upon completion, students can order an official transcript through [Parchment](#). Processing fees may vary.
5. Students who successfully complete the summer school program will be eligible to earn up to 2 hours of high school elective credit.

ACCREDITATION

Nelson Mandela Academy's program is offered in partnership with [Citizens High School \(CHS\)](#), a regionally and nationally accredited leader in online education. Our program is designed to provide a full high school diploma, and not an equivalency or certificate. We hold ourselves and our curriculum to the absolute highest accreditation standards in terms of content, structure, and educational benchmarks. The following is a list of the governing and advisory organizations for CHS' accreditation within the education sector.

- Middle States Association Commission on Elementary and Secondary Schools
- Distance Education Accrediting Commission
- Council for Higher Education Accreditation
- Florida Department of Education
- National Collegiate Athletic Association

We have you covered from traditional core courses, course credit recovery, Career Pathway industry certifications, and a selection of unique fun summer courses designed to make learning enjoyable year-round.
